

With many of you currently providing the most appropriate regime for medical colleagues to deal with the Covid-19 pandemic, we have decided to extend the deadline for submissions of articles/synopses for the 2021 edition of the International Federation of Hospital Engineering (IFHE) Digest until 24 June 2020.

The IFHE Digest 2021 will examine a wide range of topics covering the optimal running of healthcare facilities. If you have a relevant article (approx.. 2500 word) that you would like to submit for consideration, please do not hesitate to send it to editorial@ifhedigest.com along with a selection of high resolution jpg images (300 dpi) at the earliest opportunity.

If you have an idea for a paper that you wish to pursue for publication in IFHE Digest 2021, please send a synopsis of no more than 200 words by 24 June 2020.

We appreciate that this is a busy time for many of you. However, if you are undertaking work that you think is important to share with your peers in IFHE Digest 2021, then we would like to hear from you.

Best wishes,

Tim Probert

Editor - IFHE Digest 2021
